📍 Kundapura, Karnataka

PROFESSIONAL SUMMARY

Analytical CSE (IoT, Cybersecurity & Blockchain) student with hands-on experience in Data Analysis, Business Analytics, and SOC operations. Proficient in Python, SQL, Power BI, Splunk, and Statistical Analysis with proven ability to derive actionable insights from complex datasets. Experienced in building interactive dashboards, threat detection, incident response, and social impact tech solutions.

EDUCATION

Alva's Institute of Engineering and Technology <i>B.E. in CSE (IoT, Cybersecurity & Blockchain)</i>	Mudbidri, Karnataka 2023 – Pursuing
Shri Venkatramana PU College, Kundapura <i>Senior Secondary (Class XII) – Science 84%</i>	Karnataka State Board 2023
Government High School, Kalavara <i>Secondary (Class X) 92%</i>	Karnataka State Board 2021

TECHNICAL SKILLS

Data Analysis & Visualization: Power BI, Statistical Analysis, Data Visualization, KPI Reporting, Data Modeling
Programming & Database: Python (Pandas, NumPy, Matplotlib), SQL, Power Query
SOC & Cybersecurity: Splunk, SIEM, Threat Detection, Incident Response, Log Analysis, Phishing Analysis
Business Analytics: Decision Making, Problem Solving, Analytical Thinking, Business Intelligence
Other: Networking Basics, Cybersecurity Tools, MS Office Suite, Communication Skills

WORK EXPERIENCE

Business Intelligence Intern <i>FICE Education</i>	Virtual Feb 2026 – Mar 2026
- Developed 4+ interactive Power BI dashboards enabling stakeholders to make data-driven decisions using real-time KPI tracking. - Performed end-to-end data analysis – cleaning, transformation, modeling, and visualization – improving reporting accuracy significantly. - Analyzed business trends and KPIs using statistical methods to generate actionable insights supporting strategic decision making.	
Data Analytics Virtual Intern <i>Deloitte Virtual Simulation</i>	Virtual 2025
- Simulated real-world data analyst responsibilities – performed data analysis, created visualizations, and generated business insights. - Strengthened problem-solving and analytical thinking through structured business analytics and decision science tasks.	

PROJECTS

Sahayak Connect <i>HTML, CSS, JavaScript, Leaflet.js, Chart.js, Haversine API</i>	April 2026
- Built a social impact web platform connecting people in emergencies with nearby volunteers and NGOs using location-based smart matching via Haversine formula. - Implemented 4 core modules: Help Request System (5-step form with GPS), Smart Volunteer Matching (auto-assigns nearest volunteer in under 60 seconds), NGO Service Network, and Admin Dashboard with Chart.js analytics. - Supported 4 user roles (User, Volunteer, NGO, Admin) with role-based login and real-time request tracking from submission to resolution.	

- Designed for zero-cost deployment – no API fees, works on any device without internet dependency; Firebase-ready for production.

E-Commerce Customer Behavior Analysis | *Python, Power BI, Statistical Analysis* Feb 2026 – Mar 2026

- Analyzed 3,900+ customer records to identify shopping behavior patterns, product preferences, and payment trends.
- Built an interactive Power BI dashboard with 6+ visualizations enabling data-driven decision making for business stakeholders.

Smart Street Light System | *IoT, Sensors, Embedded Systems* Dec 2025

- Designed IoT-based automated system using real-time sensor data to optimize energy consumption through automated lighting control.

CYBERSECURITY ACTIVITIES

CyberSiege 2026 – National Level CTF Competition

Alva's Institute of Engineering and Technology 2026

- Participated in a 24-hour national-level Capture The Flag competition solving challenges in cryptography, digital forensics, web security, OSINT, reverse engineering, and steganography.

Cybersecurity Hackathon

Dayananda Sagar College of Engineering 2026

- Collaborated with peers to solve real-world cybersecurity challenges; demonstrated teamwork, technical problem-solving, and cybersecurity research skills.

CERTIFICATIONS

- **Power BI for Business Applications** – AICTE (4 Weeks)
- **Deloitte Data Analytics Virtual Internship** (2025) – Data Analysis, Visualization & Business Insights
- **NPTEL: Joy of Computing with Python** – IIT Faculty certified Python programming course
- **Mastercard Cybersecurity Virtual Simulation** (2025) – Threat Analysis & Incident Response

ADDITIONAL INFORMATION

Languages: English, Kannada, Hindi

Interests: Data Analytics, SOC Operations, Cybersecurity, Business Analytics, Problem-Solving
